

VB VERTICAL BANK

The Perry **VB vertical bank** is an efficient, highly effective system for removing odorous compounds from municipal and industrial processes. These systems can utilize a wide variety of adsorbent media for specific treatment. Such as:

- Lower capital cost and reduced operating costs
- High efficiencies of odorous compounds
- High quality FRP construction manufactured to exceed industry standards
- Removable carbon retention screen.

Perry Fiberglass Products, Inc.

Experts in designing and manufacturing odor control and air pollution control equipment

5415 Village Drive Rockledge, Florida 32955 / Phone: 321-609-9036 / www.PerryFiberglass.com

VB VERTICAL BANK

EASY, SIMPLE AND EFFECTIVE SOLUTION TO TREAT ODOROUS AIR

FEATURES	BENEFIT
Small Overhead Footprint	Rectangular foot print resulting in smaller foot print
Proprietary Interior Diffuser	VB is designed with a special air diffuser system to ensure proper air distribution through each bed.
High-quality Construction	Vessel and internal components are manufactured using high quality, corrosion resistant materials to provide a long service life.
Operator-friendly	Besides fan components, the VB has no moving parts. Carbon is removed, filled and self-levels.
High Quality Media	The VB is available with a wide variety of media. We recommend pelletized activated carbon for our units.
FRP Flanged Carbon Ports	High-quality FRP flanged ports providing a better seal and longevity.
Carbon Retention Screen	Unlike other vertical bank carbon unit manufacturers; our vertical bank is designed to have a removable carbon retention screen.

Perry Fiberglass offers the following complete line of odor control and air pollution control products

- B1 single bed
- B2 dual bed
- RF radial flow
- Chemical scrubbers
- Controls
- FRP ductwork systems
- AMCA certified dampers
- Grease filter/ mist eliminators
- Control panels
- Fans
- Activated carbon media
- FRP chemical storage tanks
- Biofilters/Biotrickling Filters
- Sound enclosures and silencers
- Field services
