Engineers

Whitescarver, Hurd & Obenchain, Inc.
Roanoke, VA

Description

We designed pool ducting (supply and return air) with Perry 20S Low Smoke™ duct. Unlike stainless steel and aluminum it is impervious to the chlorine environment. With Perry 20S Low Smoke™, you get a duct which meets Class 1 requirements for both flame spread of less than 25 and smoke development of less than 50.

Perry Fiberglass Products, Inc.

is a leading manufacturer
of high quality fiberglass
reinforced plastic (FRP)
products for heating and
ventilation systems and
industrial exhaust.

*Left: Natatorium at the James Madison University Recreation / Student Activity Facility
Top Right: Rectangular and oval return ducts
Bottom Right: Round supply duct*

Whatever your need, you can count on Perry Fiberglass for **high quality duct backed by excellent service.**
